428 Marilyn Lane  
Alcoa, TN 37701

Dear Mr. Hardman

Re: Product Evaluation – Visual Corporation Detectable Warning System

The Visual Corporation Detectable Warning System was installed at the Texas Department of Transportation (TxDOT) Riverside Annex in Austin, Texas on November 27, 2006 and was evaluated on June 8, 2007.

The installation was evaluated based on several criteria including conformance of the domes, wearing of the surface, appearance, visual contrast, performance and durability. The detectable warning material product currently meets our evaluation criteria. Consequently, your products will be placed on our list of Qualified Detectable Warning Materials. The list can be found on the TxDOT website at:

[http://www.dot.state.tx.us/business/producer\\_list.htm](http://www.dot.state.tx.us/business/producer_list.htm)

We look forward to working with you on future projects, and please don't hesitate to contact me with any questions or concerns. You may reach me at (512) 416-2714 or email at [pkrause@dot.state.tx.us](mailto:pkrause@dot.state.tx.us).

Sincerely yours,

Peter B. Krause
